Dear Brad:

Reference: File No. 520.80

Thank you for your gracious invitation of 10 December 1965 to contribute to the Commission II Summary for the URSI General Assembly. I very much regret that my contributions to this area during the past three years have been precisely zero. Neither have I followed the literature closely, so my general comments would be of little value.

STATINTL

I heard of your research and read the preprints from Boulder with great interest. It would be wonderful to see you again, and I hope that you can set aside time during your next visit to Washington.

Sincerely,

Albert D. Wheelon  
Deputy Director
